

UNDERSTANDING & SUPPORTING AUTISTIC PEOPLE

A NEURO-AFFIRMING PERSPECTIVE

PROFESSIONAL WORKSHOP

2 HOUR WORKSHOP

*Workshop length is flexible and can be modified to suit the needs of your team.

Does your organisation want to embrace neuro-affirming practice?

Do you support the Autistic community and want to build your understanding?

Do you want to reframe your understanding of Autism to a strengths based model?

This professional workshop provides a neuro-affirming perspective of Autism, supporting professionals to develop their understanding of Autistic people as well as their capacity to apply this knowledge to effectively and appropriately support the Autistic community in an affirming way.

WORKSHOP OUTCOMES

WORKSHOP ATTENDEES WILL BE ABLE TO:

- Describe the Neurodiversity Paradigm and its core values.
- Reframe diagnostic characteristics from a deficit model to a strengths-based model.
- Understand Autism as an independent neurotype (not a defective neurotypical brain!)
- Understand the common characteristics of the Autistic brain and how they work.
- Understand how the Autistic brain processes information and regulates attention.
- Recognise common co-occurring characteristics in Autistic people such as ADHD.
- Apply new understandings to provide neuroaffirming support.
